

# FRANKFURT ABRASIVE

Abrasive product with Frankfurt coupling destined to **Calibrate, Polish and Shine all Stone surfaces.**

## TECNOLOGIES: ▼

### SYNTEX<sup>®</sup> FORMULA

\_The combination of minerals with **magnesium oxide**, bound by **synthetic resins**, results in very **economical** and **high-performance** abrasive products.

\_Recommended option for Frankfurt Abrasives with **coarse grains** where **high cutting or polishing power** is required.

\_Product **very stable**, not changing its properties over time.

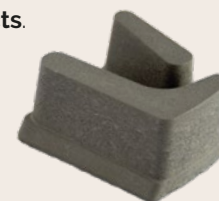

### RESIN<sup>®</sup> FORMULA

\_The most delicate surfaces that require the best finish, require very **soft abrasive products**.

\_The **RESIN** formulations combine an elaborate selection of minerals, 100% agglutinated with specific **synthetic resins**, which together with a controlled production process, **guarantee the best finish** with **maximum performance**.

\_Recommended option for Frankfurt Abrasives of **finer grains** where previously it has been polished using first Syntex type grains.

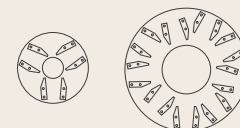

### madeto measure

\_Possibility to manufacture these products in **another format** such as the **"Verona"** or **"Macizo"** type.

\_ **Universal coupling** type Frankfurt, with **quick change**, adaptable to all the machines of the market.

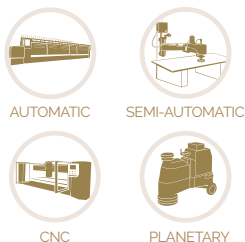

\_ **Ecological.** This product does not contain substances prohibited according to the regulation (CE) n°1907 / 2006

## MATERIALS ▼

- ✓ MARBLE / MR
- ✓ TERRAZZO / TR
- ✓ GRANITE / GR
- ✓ CONCRETE / CON
