

# FRANKFURT 5 EXTRA TRAPEZOIDAL

Product destined to "Shine", granting an excellent "**mirror shine**".

## TECHNOLOGIES: ▼

\_With this technology applied together with a careful selection of raw materials and an elaborate production process, we managed to create an **extra-hard glass** on the polished surface of Marble or Terrazzo.

\_Increases the **hardness** of the surface in the Mohs Scale and the **scratch resistance**.

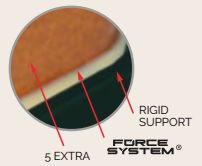

\_Example of maximum industrial automation by means of a multi-press system executed by robotic arms. Hereby we ensure the **maximum precision in processes and products**, with **constant quality** that differentiates us.

\_The construction of the Frankfurt 5 Extra combines flexible and rigid parts, guaranteeing an **unparalleled resistance to impacts**.

\_With this technology we ensure a constant contact of the 5 Extra on the surfaces, avoiding **marks and scratches in the shining process**.

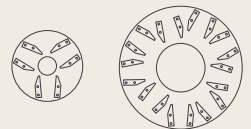

\_Extensive range of **hardness** adaptable to all materials and machinery, with the **possibility of combining them** to achieve the highest quality and performance.

\_The GL hardnesses are produced to shine the most demanding marbles, where we search a **mirror shine** with **maximum depth**, without sacrificing **performance**.

\_This GL technology combines natural raw materials of animal origin with an extremely careful and artisan manufacturing process, ensuring maximum product quality.

\_Universal coupling type Frankfurt, with **quick change**, adaptable to all the machines of the market.

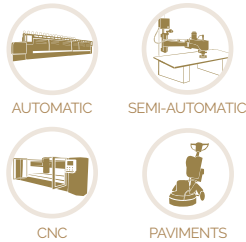

\_Ecological. This product does not contain substances prohibited according to the regulation (CE) n°1907 / 2006
