

# FRANKFURT SANDBLAST

**Patented** novel Sandblast system with Frankfurt coupling.

## MATERIALS

- ✓ MARBLE / MR
- ✓ GRANITE / GR
- ✓ TERRAZZO / TR
- ✓ CONCRETE / CON

## TECHNOLOGIES:

### Basic

**Armored structure** that **requires no maintenance** and ensures perfect operation under any condition and throughout the life of the rollers.

### PLUS

**Internal structure with "double shielding"**, prepared to withstand the maximum loads. **It does not require maintenance**, due to its very robust internal self-lubricated construction and its structural geometry.

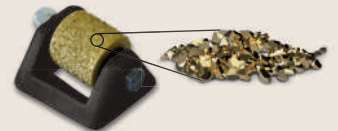

### ACTIVE SHOCK SYSTEM

**Revolutionary Axle Kit** thanks to this system it is possible to **efficiently absorb the knocks** that the rollers receive during their work.

### CLOSE TECH

Sandblasting system with **shavings of high performance, 100% Tungsten carbide**.  
By manufacturing with closed mechanical electrostatic dispersion, we achieve tools with **very low wearing away** and the **maximum precision**.

Its hardness between 8.5 and 9.0 on the Mohs scale ensures a product with the **highest possible resistance**, close to diamond.

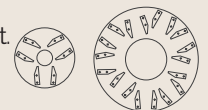

"Frankfurt" type Sandblast **PATENTED** system.

Its ease of **self-assembly** using **interchangeable rollers** makes this product the most economical and fastest universal solution on the market.

Its **universal coupling** type Frankfurt, with **quick coupling change**, adapts to all machines on the market.

Avoids the laborious assembly of the traditional bushhammer plates, **increasing productivity**.
