

# ADR HYBRID PUZZLE WHEELS

**Diamond Resined Abrasive (ADR)**, destined to polish and gloss **both straight and toroidal edges**.

## MATERIALS

- ✓ QUARTZ / QZ
- ✓ GRANITE / GR
- ✓ CERAMIC / CR
- ✓ MARBLE / MR

## MACHINES

EDGE POLISHER

CNC

## AVAILABLE OPTIONS:

GRITS ▶ 50-100-200-400-800-1500-3000

|            | COUPLING  | TYPE          |
|------------|-----------|---------------|
| 125mm (5") | (DX) (SX) | Straight edge |
|            | (VEL)     | Toroidal edge |
| 150mm (6") | (DX) (SX) | Straight edge |
|            | (VEL)     | Toroidal edge |

OPTIONS ▶ NORMAL **FORCE SYSTEM®**

UNITS ▶ ref. 050207

## TECHNOLOGIES:

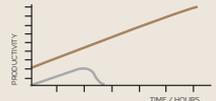

### ADR®

A controlled and homogeneous dispersion of the diamond, make this technology the perfect combination to achieve superior **Diamond Resin Abrasives**.

**Specific formulations** developed to optimize the polishing of different materials.

**Undefined storage keeping** stable without changing its properties over time.

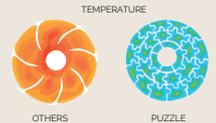

**Increase in the productivity** with respect to the traditional abrasive, avoiding the continuous machine stops.

PERFORMANCE  
ADR abrasive  
Traditional abrasive

### puzzle®

Very effective Innovative cooling system, based on liquid cooling "**watercooling**". It keeps the **tool refrigerated** and in optimal working conditions throughout its useful life.

TEMPERATURE  
OTHERS  
PUZZLE

### WHITE FORMULA®

Revolutionary diamond formula with **absence of pigmented fillers**. Eliminates the danger of transferring color to surfaces, achieving a **perfect polish on any surface**.

### easy start®

**100% effective structured abrasives** from the beginning. The linear micro-structure defined in the upper part of the product, allows a **perfect job from the beginning**, no need to prepare or open the tool previously.

### ROBOT MULTI-PRESS®

Example of maximum industrial automation by means of a multi-press system executed by robotic arms. Hereby we ensure the **maximum precision in processes and products**, with **constant quality** that differentiates us.

### HYBRID

STRAIGHT & BULLNOSE

Exclusive format with design and specific parameters, used in hybrid tools for polishing both straight and curved surfaces.

### FORCE SYSTEM®

The construction of the tool combining flexible with rigid parts guarantees a perfect coupling and a constant contact on surfaces, **avoiding marks and scratches on the polish**.

**Ecological.** This product does not contain substances prohibited according to the regulation (CE) n°1907 / 2006

ISO 9001:2015 CERTIFIED
