EDGE POLISHER

CNC

AVAILABLE OPTIONS: ▼

GRITS ▶ 50-100-200-400-800-1500-3000  
White Shine- Black Shine

	COUPLING	TYPE
100mm		Straight edge
125mm		Toroidal edge
		Straight edge
	Bevel	
150mm		Straight edge

OPTIONS ▶ NORMAL **FORCE SYSTEM®**

UNITS ▶ ref. 050202

# ADR WHEELS

**Diamond Resined Abrasive (ADR)** destined to polish and gloss edges.

TECHNOLOGIES: ▼

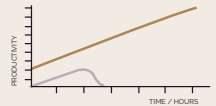

\_ A controlled and homogeneous dispersion of the diamond, makes this technology the perfect combination to achieve superior **Diamond Resin Abrasives**.

\_ **Specific formulations** developed to optimize the polishing of different materials.

\_ **Undefined storage keeping** stable without changing its properties over time.

\_ **Increase in the productivity** with respect to the traditional abrasive, avoiding the continuous machine stops.

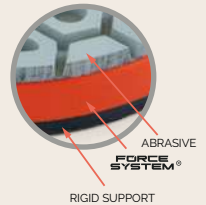

PERFORMANCE  
ADR abrasive  
Traditional abrasive

\_ The construction of the tool combining flexible with rigid parts guarantees a perfect coupling and a constant contact on surfaces, **avoiding marks and scratches on the polish**.

\_ We recommend applying **Force System technology on the finest grits** to achieve the highest polishing and shining quality.

\_ Example of maximum industrial automation by means of a multi-press system executed by robotic arms. Hereby we ensure the **maximum precision in processes and products**, with **constant quality** that differentiates us.

\_ The **geometric structure** of the honeycomb is the ideal base to build products with a very **resistant structure** while being light, providing a perfect **cooling** during use.

\_ Revolutionary diamond formula with **absence of pigmented fillers**. Eliminates the danger of transferring color to surfaces, achieving a **perfect polish on any surface**.

\_ **Individual identification** by marking with a numerical button, informing of the corresponding grain.

\_ **Ecological**. This product does not contain substances prohibited according to the regulation (CE) n°1907 / 2006
