TECNOLOGIES:

THERMOPRESS®

_ **Hot pressing system** used in the manufacture of the technical felt

_ Highly homogeneous hardness, ensures a product with **maximum resistance**.

_ The construction of the Fickert Felt combines flexible and rigid parts, guaranteeing an **unequaled resistance to impacts**.

_ With this technology we ensure a constant contact of the Fickert Felt on the surfaces, **avoiding marks and scratches in the polished**.

_ **Ecological**. This product does not contain substances prohibited according to the regulation (CE) n°1907 / 2006

ISO 9001:2015 CERTIFICATED
