TECHNOLOGIES:

A controlled and homogeneous dispersion of the diamond, make this technology the perfect combination to achieve superior **Diamond Resin Abrasives**.

Multi-Channel system designed exclusively to achieve an **excellent cooling**. It keeps the tool refrigerated and in optimal working conditions **throughout its useful life**.

Example of maximum industrial automation by means of a multi-press system executed by robotic arms. Hereby we ensure the **maximum precision in processes and products**, with **constant quality** that differentiates us.

Revolutionary diamond formula with **absence of pigmented fillers**. Eliminates the danger of transferring color to surfaces, achieving a **perfect polish on any surface**.

**easystart** 100% effective structured abrasives from the beginning. The linear micro-structure defined in the upper part of the product, allows a **perfect job from the beginning**, no need to prepare or open the tool previously.

Revolutionary polishing system in just three steps. **Reduce unnecessary steps** to get the level of polish and shine desired, **saving costs** of tool and work time.

**Individual identification** by marking and colour code, informing of the corresponding grit/step.

**Ecological**. This product does not contain substances prohibited according to the regulation (CE) n°1907 / 2006
