TECHNOLOGIES:

A controlled and homogeneous dispersion of the diamond, make this technology the perfect combination to achieve superior **Diamond Resin Abrasives**.

Example of maximum industrial automation by means of a multi-press system executed by robotic arms. Hereby we ensure the **maximum precision in processes and products**, with **constant quality** that differentiates us.

The **geometric structure** of the honeycomb is the ideal base to build products with a very **resistant structure** while being light, providing a perfect **cooling** during use.

**Individual identification**

by marking and colour code, informing of the corresponding grit/step.

**Ecological.** This product does not contain substances prohibited according to the regulation (CE) n°1907 / 2006
