ANTI-SLIP

Special anti slip treatment.

TECHNOLOGIES: ▼

_Fast action.

_Concentrated product.

_Scented.

_Easy application.

_Long lasting.

_Resistant to water and alcohol.

_Level control through viewer.

Filling control system that allows knowing at a glance how much product is remaining.

PROPERTIES: ▼

ANTI-SLIP is a high power non-slip product studied to avoid falls in freshly scrubbed areas or even in wet areas as shower feet, in homes, hotels, hospitals, nursing homes, leisure areas, etc. ANTI-SLIP creates micropores on the treated surface that act as suction cups, achieving a coefficient of friction > 0.75.

USE METHOD: ▼

Clean the surface to be treated. Then apply pure **ANTI-SLIP** generously by spraying or distributing it with mop on the surface to be treated. Once applied wait from 2 to 10 minutes until dry. After this time, rinse with water and dry later. The surface will be ready for use and completely safe for the transit of people.

WARNINGS: Never exceed the indicated waiting time. Do not apply on Marble, Granite or other natural stones with SHINE.

Ecological. This product does not contain prohibited substances according to the regulation (CE) n°1907 / 2006

All our containers are **certified** by Ecoembes Recycling Company.

_Product destined to **professional use.**
