CRYSTAL-R

Crystal Resin for Stone.

PROPERTIES: ▾

_Crystal Resin for Stone, specially formulated to resin the face of slabs or tiles.

USE: ▾

Special for Floors

2-3%

Prior to application, add 2-3% secant and mix to achieve perfect curing.

Use for inside and outside

5-10min 25°C

Time required for the adhesive, mastic or resin to change viscosity and begin curing, once mixed with the secant.

Material of liquid consistency

30-35min 25°C

Time required for the adhesive, mastic or resin to complete curing, once mixed with the secant. Once curing is complete, sanding and/or manipulation is possible.
