

# 75MM ADR OVAL

**Diamond Resined Abrasive (ADR)** destined to polish and gloss surfaces.

## MATERIALS

- ✓ CONCRETE / CON
- ✓ MARBLE / MR
- ✓ TERRAZZO / TR
- ✓ GRANITE / GR

## MACHINES

PLANETARY

TRADITIONAL

SWING

## AVAILABLE OPTIONS:

GRITS ▶ 50-100-200-400-800-1500-3000

COUPLING ▶  VEL

HARDNESS ▶ PAV / CON

UNITS ▶

ref. 050209

## TECHNOLOGIES:

Thanks to the **Oval design** applied in the ADR segments, we achieve tools with a standard diameter adaptable to all the existing machines. **We increase exponentially the capacity to work, reducing working hours** and therefore **the cost** of polishing.

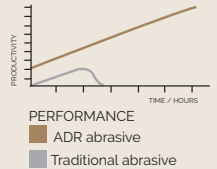

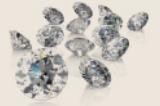

A controlled and homogeneous dispersion of the diamond, make this technology the perfect combination to achieve superior **Diamond Resin Abrasives**.

**Specific formulations** developed to optimize the polishing of different materials.

**Undefined storage keeping** stable without changing its properties over time.

**Increase in the productivity** with respect to the traditional abrasive, avoiding the continuous machine stops.

**100% effective** structured abrasives from the beginning. The **linear micro-structure** defined in the upper part of the product, allows a perfect job from the beginning, no need to prepare or open the tool previously.

Example of maximum industrial automation by means of a multi-press system executed by robotic arms. Hereby we ensure the **maximum precision in processes and products**, with **constant quality** that differentiates us.

**Ecological.** This product does not contain substances prohibited according to the regulation (CE) n°1907 / 2006

Thanks to the **Oval design** applied in the ADR segments, we achieve tools with a standard diameter adaptable to all the existing machines. **We increase exponentially the capacity to work, reducing working hours** and therefore the **cost** of polishing.
