SEMITIXO

Semi-Thixotropic Mastic.

PROPERTIES: ▼

Semi-solid Mastic for Stone, specially formulated to fill **large holes** on tiles or stone slabs.

USE: ▼

Special for Floors

Prior to application, add 2-3% secant and mix to achieve perfect curing.

Use for inside and outside

Time required for the adhesive, mastic or resin to change viscosity and begin curing, once mixed with the secant.

Material of liquid consistency

Time required for the adhesive, mastic or resin to complete curing, once mixed with the secant. Once curing is complete, sanding and/or manipulation is possible.

* The tests have been carried out at an ambient temperature of 25°C.

Ecological. This product does not contain substances prohibited according to the regulation (CE) n°1907 / 2006

All our containers are **certified** by Ecoembes Recycling Company.

Product destined to **professional use.**
