STONE KIT 3D

Cleaning, polishing and protecting kit.

TECHNOLOGIES ▼

- _ High shine.
- _ Máximum protection.
- _ Highly effective.
- _ Very long-lasting.
- _ Easy application.

PROPERTIES: ▼

STONE KIT 3D has been specifically formulated for cleaning and polishing ornamental stones using an innovative system that encapsulates dirt particles and provides a spectacular shine on the surface when applied with a 3D microfibr cloth. In addition, the Stone will be protected against dirt and will have water repellent properties. **STONE KIT 3D** is a highly effective and very durable product.

USE METHOD: ▼

MANUAL APPLICATION:

- 1.- Spray on the stone to be treated.
- 2.- Spread with the 1st cloth to encapsulate the dirt.
- 3.- Use the 2nd cloth to polish the surface. If more intense shine is required, it is possible to spray again on the surface and use the 2nd cloth to polish the Stone.

AUTOMATIC APPLICATION:

- 1.- Fill the applicator tank and adjust the required flow depending on the required shine.
- 2.- Spread the product on the surface using cleaning wheels, woollen wheels or other types of pads on the surface that requires cleaning and polishing.
- 3.- Check that the surface is dry. If not, adjust applicator flow. The Stone will be clean, polished and with water repellent properties.

Ecological. This product does not contain prohibited substances according to the regulation (CE) n°1907 / 2006

All our containers are **certified** by Ecoembes Recycling Company.

Product destined to **professional use.**
