TINT

Stone Tint.

PROPERTIES: ▼

Stone Tint, specially formulated to modify or increase the tone or colour. Once dry, the Stone will be perfectly tinted with an astonishing result.

USE METHOD: ▼

Manual or automatic application: Administer the tint once the polishing process is finished, by manual application or automatic dispensers. Then the tint excess must be removed by rubbing the surface with a cotton mop or wool felt. Its drying will be immediate and the results are visible on the spot.

Application with spray: Administer the tint by pressure machine with spray outlet. Then evenly distributed the tint on the entire surface by rubbing with a cotton mop or wool felt. Its drying will be immediate and the results are visible on the spot.

Ecological. This product does not contain prohibited substances according to the regulation (CE) n°1907 / 2006

All our containers are **certified** by Ecoembes Recycling Company.

Product destined to **professional use.**
