TECHNOLOGIES: ▼

A controlled and homogeneous dispersion of the diamond, make this technology the perfect combination to achieve superior **Diamond Resin Abrasives**.

Revolutionary polishing system in just three steps. **Reduce** unnecessary **steps** to get the level of polish and shine desired, **saving costs** of tool and work time.

The combination of synthetic fibers with **high flexibility resins** enables the creation of innovative diamond abrasives. **Tenacity and lightness** are the main characteristics of this new technology.

Example of maximum industrial automation by means of a multi-press system executed by robotic arms. Hereby we ensure the **maximum precision in processes and products**, with **constant quality** that differentiates us.

Individual identification by marking and colour code, informing of the corresponding grit/step.

Ecological. This product does not contain substances prohibited according to the regulation (CE) n°1907 / 2006
